

Location: Lexington, MA
Industry: Surgical Devices
Company: OmniGuide Holdings, Inc.

Acquisition Date: June 2018
Investment Size: \$673,706
Investment Term: 42 Months

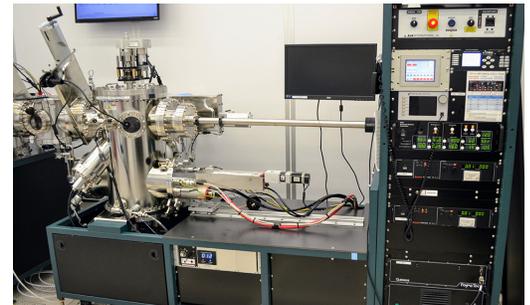

Background:

OmniGuide provides surgical tools relating to minimally invasive surgeries, robotic surgeries, and specific tissues operations such as cutting, coagulating, and sealing tissue. In an environment of growing healthcare needs OmniGuide offers cutting edge solutions allowing medical treatments to reach new heights. OmniGuide is backed by OrbiMed, a private investment firm managing over \$14B with a focus in life science companies.

Collateral:

OmniGuide's core product, which was responsible for 75% of their revenue in 2017, is a specialized instrument used in electro-surgeries called "fibers". Financing from Arboretum Investment Advisors, LLC ("Arboretum IA") will go towards two pieces of equipment, a Draw Tower and a Thermal Evaporation System, that are directly responsible for the production of these fiber units. With OmniGuide's fiber solution comprising so much of company revenue these assets are deemed business critical. In addition, both assets have a longer useful life than Arboretum IA's financing.

About the Sponsor:

Arboretum IA currently provides asset management and asset servicing to third party fund managers and works with a diverse array of clients including retail investors, private wealth managers and family offices.
