# Company Overview

## **Our Business:**

Our principal investment strategy is to invest in business-essential, revenue-producing (or cost-saving) equipment and other physical assets with high in-place value and long, relative to the investment term, economic life and project financings. We expect to achieve our investment strategy by making investments in equipment already subject to lease or originating equipment leases in such equipment, which will include: (i) purchasing equipment and leasing it to third-party end users; (ii) providing equipment and other asset financing; (iii) acquiring equipment subject to lease and (iv) acquiring ownership rights (residual value interests) in leased equipment at lease expiration. From time to time, we may also purchase equipment and sell it directly to our leasing customers.

The life cycle of our fund is divided into three distinct stages: (i) the Offering Period, (ii) the Operating Period and (iii) the Liquidation Period. Our Offering Period commenced on August 11, 2016 and concluded on March 31, 2019.

During the Offering Period, the majority of our cash inflows were derived from financing activities and the direct result of capital contributions from Limited Partners.

## STATEMENT REGARDING THE EFFECTS OF COVID-19 ON OUR BUSINESS:

The disruptive nature of the coronavirus pandemic has been felt across all businesses in every industry both around the country and the world. In an effort to mitigate potential long term losses, Arboretum Silverleaf Income Fund, L.P. (the "Fund") provided short term payment relief to nearly all of its obligors throughout 2020 in order to provide an opportunity for obligors to remain in business during these most challenging of times. Although most obligors have resumed making their pre-pandemic contracted payments, unfortunately, some of these companies have not survived the crisis thereby requiring the Fund to take action to mitigate and minimize the negative impact that arose from these situations. In certain instances, the Fund has had to repossess the equipment from these failed companies in order to remarket or enter into settlement agreements to limit the exposure for the Fund.

As of March 31, 2021, our portfolio consisted of:
